COMP8715 Research Plan

Siu Kei Muk (u5721042)

August 17, 2016

Project Title: Evolutionary Algorithm with Recombination Hotspots
Supervisor: Tom Gedeon

Research Plan

Week 1 - 6: Literature review
Week 7: Start designing experiment and constructing corresponding codes
Week 8: Run simulations and tests, collect experiment results
Week 9: Start writing report, preparing for presentation
Week 10 - 12: Polish and modify report, simulate presentation
